

How to prepare for your flower wedding consultation

There are so many decisions to make when planning a wedding. When it comes to flowers it can be a little daunting. What are the best flowers to use? What style do you like? How can I make it special and customized? Our wedding consultants will guide you through the process, but here are a few tips to make it run smoothly.

Consultation Prep tips:

1. Look at lots of pictures and clip them. Create a Pinterest page of all your favorites. Make a list of what you like about that bouquet. Is it the color, the shape or a flower that is intriguing. Watch for common denominators in your choices. (If you're not into Pinterest or Instagram – no worries, we have lots of pictures to show you).
2. Bring color swatches. We can match ribbons and flower varieties and offer suggestions of blending shades.
3. Don't worry about flower varieties or too many details. That's where we can help you create the vision.

This is a fun process. Don't fret. We listen, we care and we want to make your day extra special with flowers.

Fast track your proposal process and email this questionnaire with your inspiration photos to Jordan. She will get started on your free proposal right away!
